- (b) evaluate the necessity of making public disclosures;

The timelines should allow for circulation of draft Core Documents to such persons sufficiently in advance of the applicable filing deadline in order to enable such persons to review carefully the filing of Core Documents and discuss any questions and comments related thereto;
- (f) identify appropriate disclosure benchmarks for an assessment of materiality and timely disclosure, taking into consideration the nature of the information, the historical volatility of the Company's securities, industry practice and the prevailing market conditions;

 - iii. a misrepresentation has been made;
- (h) periodically evaluate the effectiveness of the Company's disclosure controls and procedures, particularly prior to the filing of each Core Document, including assessing the adequacy of the controls and procedures in place to ensure that Material Information required to be disclosed in the Company's Core Documents is being recorded, processed, summarized and reported within the required time periods;
- (i) make revisions with respect to the disclosures to be contained in Core Documents to be filed by the Company;
- (j) conduct discretionary interim evaluations of the Company's disclosure controls and procedures in the event of significant changes in securities regulatory requirements, International Financial Reporting Standards ("IFRS") or Canadian GAAP (or other applicable accounting principals), legal, or other regulatory policies, or stock exchange requirements, or if they otherwise consider such evaluations appropriate; and
- (k) monitor the effectiveness of, and compliance with, this Policy and report to the Board, or the applicable Board Committee, on the operation of this Policy, specific disclosure issues, the processes followed, the assessment of the quality of disclosure and any related matters, and recommend any necessary changes to this Policy such that it complies with changing requirements and best practices.

4.3 Disclosure Representatives to be fully informed of corporate developments

All employees of the Company, directly or through their immediate supervisor, must keep all Disclosure Representatives sufficiently apprised of potentially material developments so they can discuss and evaluate any events that might give rise to a disclosure obligation.

5. Designated Spokespeople

The Company's President and Chief Executive Officer is responsible for all public relations, including all contact with the media, and are the only individuals ("**Spokesperson**"), unless otherwise authorized by the President and Chief Executive Officer, authorized to respond to analysts, the media and investors on behalf of the Company.

Employees other than a Spokesperson must not respond under any circumstances to inquiries from the investment community, the media, regulatory authorities or others unless specifically authorized by a Spokesperson. All such communications must be immediately referred to the President and Chief Executive Officer.

6. Procedures Regarding the Preparation and Release of Documents

- 6.1 The procedures in this section apply to all directors, officers and employees, as well as consultants and contractors.
- 6.2 A “Document” means any public written communication, including a communication prepared and transmitted in electronic form (hereinafter referred to as a “**Document**”):
- (a) that is required to be filed with the British Columbia Securities Commission (the “**BCSC**”), or any other securities regulatory authority in Canada on the System for Electronic Document Analysis and Retrieval (“**SEDAR**”) website at *www.sedar.com* or otherwise;
 - (b) that is not required to be filed with the BCSC or on the SEDAR website but is so filed;
 - (c) that is filed or required to be filed with a government or an agency of a government under applicable securities or corporate laws or with any stock exchange or similar institution under its by-laws, rules or regulations; or
 - (d) any other communication the content of which would reasonably be expected to effect the market price or value of the securities of the Company.
- 6.3 A “misrepresentation” means:
- (a) an untrue statement of a Material Fact; or
 - (b) an omission to state a Material Fact that is required to be stated or that is necessary to make a statement not misleading in the light of the circumstances in which it was made.
- 6.4 For the purpose of this Policy, the following documents are “**Core Documents**”:
- (a) prospectuses;
 - (b) take-over bid, issuer bid, directors’, rights offering and information circulars;
 - (c) management’s discussion and analysis (“**MD&A**”);
 - (d) material change reports;
 - (e) annual information forms; and
 - (f) annual and interim financial statements.
- 6.5 Prior to the time that any Document is to be released to the public, filed with the BCSC, any other securities regulatory authority in Canada, or filed on SEDAR, the following procedures must be observed:

- (a) the Document must be prepared in consultation with, and be reviewed by, personnel in all applicable internal departments of the Company, and input from external experts and advisors should be obtained as necessary;
 - (b) any Core Document must be reviewed and approved by the Disclosure Representatives;
 - (c) the President and Chief Executive Officer and the Chairman must review and approve all news releases;
 - (d) the Chief Financial Officer and Audit Committee must review and approve any news release or Core Document containing financial information;
 - (e) in the event a report, statement or opinion of any expert is included or summarized in a Document, the written consent of the expert to the use of the report, statement or opinion or extract thereof and the specific form of disclosure shall be obtained. In addition, the Disclosure Representatives must be satisfied that:
 - i. there are no reasonable grounds to believe that there is a misrepresentation in the part of the Document made on the authority of the expert; and
 - ii. part of the Document fairly represents the expert report, statement or opinion; and
 - (f) Core Documents, other than interim financial statements and material change reports, must be provided to the directors sufficiently in advance of the time they are to be filed or released to allow the directors to review and comment on such documents.
- 6.6 The Company, as determined by the Disclosure Representatives, must have a reasonable basis for disclosing Forward-Looking Information (as defined by applicable Canadian securities laws). Materiality of Forward-Looking Information will be determined by considering if a reasonable investor's investment decision would be influenced or changed if the Forward-Looking Information were omitted or misstated and all material Forward-Looking Information will be broadly disseminated via news release. Forward-Looking Information will only be published if there is a reasonable basis for drawing the conclusions or making the forecast and projections set out.
- 6.7 Once the Company has published Forward-Looking Information, it will ensure that past disclosure of Forward-Looking Information is accurately reflected in the current MD&A, including disclosure and discussion of material differences between the Forward-Looking Information and actual results.
- 6.8 Any Document containing Forward-Looking Information must be identified as such, and must include disclosure, in written form, that:
- (a) identifies Forward-Looking Information as such;
 - (b) cautions users of Forward-Looking Information that actual results may vary from the Forward-Looking Information and identifies material risk factors that could cause actual results to differ materially from the Forward-Looking Information;

- (c) states the material factors or assumptions used to develop Forward-Looking Information; and
- (d) cautions that the information is being provided as of a specified date and is subject to change after that date and describes the Company's policy for updating Forward-Looking Information.

7. Disclosure Controls and Procedures

7.1 The following disclosure controls and procedures of the Company have been reasonably designed to ensure that information required to be disclosed is recorded, processed, summarized and reported on a timely basis:

- (a) The Disclosure Representatives shall assign responsibility to the appropriate individuals to draft the required disclosures in the material public disclosures of the Company and shall develop a timeline to ensure the drafting and review is conducted in a timely manner.
- (b) The Disclosure Representatives shall review new developments, key risks and business challenges or areas of concern for special attention during the drafting process.
- (c) The Disclosure Representatives shall review the draft as many times as necessary, and consider all comments raised by any other Disclosure Representatives and other reviewers. Concerns will be addressed with outside counsel and the independent auditors, as necessary.
- (d) The Disclosure Representatives shall ensure disclosure includes any information the omission of which would make the rest of the disclosure misleading. Unfavourable Material Information shall be disclosed as promptly and completely as favourable information. The materiality of information cannot be altered by breaking down the information into smaller, non-material components.
- (e) Where it considers it necessary or advisable, the Disclosure Representatives will have portions of Core Documents reviewed by another knowledgeable person. All financial information shall undergo a second internal review and a review by the Company's independent auditors.

8. Timely Disclosure of Material Information

8.1 **“Material Information”** consists of both **“Material Facts”** and **“Material Changes”**. A **“Material Fact”** means a fact that significantly affects, or would reasonably be expected to have a significant effect on, the market price or value of the securities of the Company. A **“Material Change”** means a change in the business, operations or capital of the Company that would reasonably be expected to have a significant effect on the market price or value of any of the securities of the Company and includes a decision to implement such a change if such a decision is made by the Board or by senior management of the Company who believe that confirmation of the decision by the Board is probable.

Schedule “A” attached to this Policy lists examples of Material Information.

- 8.2 Any person to whom this Policy applies who becomes aware of information that may be material must immediately disclose that information to the President and Chief Executive Officer, who shall advise the Disclosure Representatives.
- 8.3 Upon the occurrence of any change that may constitute Material Information in respect of the Company or upon the Disclosure Representatives becoming aware of an event that has the possibility of being Material Information, the Disclosure Representatives, in consultation with such other advisors as they may consider necessary, shall:
- (a) consider whether the event constitutes a Material Change;
 - (b) if it does constitute a Material Change, prepare a news release and a material change report describing the Material Change as required under applicable securities laws;
 - (c) determine whether a reasonable basis exists for filing the material change report on a confidential basis. In general, filings will not be made on a confidential basis although, in exceptional circumstances (such as disclosure related to a potential acquisition), confidential disclosure may be appropriate;
 - (d) to the extent practicable, circulate the draft news release and material change report to the members of the Board and senior management together, if applicable, with the recommendation that it be filed on a confidential basis; and
 - (e) if applicable, following approval by the Disclosure Representatives, file the material change report on a confidential basis and when the basis for confidentiality ceases to exist, and the event remains material, issue a news release and file a material change report in compliance with applicable securities laws, including the *Securities Act* (British Columbia) (the “Act”). During the period of time while a confidential Material Change has not been publicly disclosed, the Company shall maintain complete confidentiality and shall not release a document or make a public oral statement that, due to the undisclosed Material Change, contains a misrepresentation.
- 8.4 News releases disclosing Material Information will be transmitted to the stock exchange upon which securities of the Company trade, relevant regulatory bodies and major news wire services that disseminate financial news to the financial press. News releases disclosing Material Information must be pre-cleared by the Investment Industry Regulatory Organization of Canada if issued during trading hours or as may otherwise be required by the stock exchange upon which securities of the Company trade. Subject to Section 11 of the TSX Venture Exchange Policy 3.3, regardless of when an announcement involving Material Information is released, news releases must be pre-filed with the Investment Industry Regulatory Organization of Canada prior to dissemination to the public where the news release contains information relating to the following:
- (a) reverse takeovers, changes of business or other reorganizations;
 - (b) reviewable transactions, including corporate acquisitions or dispositions;
 - (c) change of control;

- (d) future-oriented financial information or other operating projections; and
 - (e) disclosure of mineral reserves or mineral resources.
- 8.5 Disclosure on the Company's website alone does not constitute adequate disclosure of Material Information. News releases will be posted on the Company's website immediately after confirmation of dissemination over the newswire. The website will include a notice that advises the reader that the information posted was accurate at the time of posting, but may be superseded by subsequent disclosures.
- 8.6 Should a material statement inadvertently be made in a selective forum, the Company will immediately issue a news release to fully disclose that information, and will request a halt in trading, if necessary.
- 8.7 Disclosure must be corrected immediately if the Company learns that earlier disclosure by the Company contained a material error at the time it was given.

9. Confidentiality of Undisclosed Material Information

- 9.1 "Undisclosed Material Information" of the Company is Material Information about the Company that has not been "Generally Disclosed", which means that the Material Information has been disseminated to the public by way of a news release and a reasonable amount of time (24 hours, unless otherwise advised that the period is longer or shorter, depending on the circumstances) has passed since the dissemination of the news release for the public to analyze the information.
- 9.2 Any person to whom this Policy applies and who has knowledge of Undisclosed Material Information must treat the Material Information as confidential until the Material Information has been Generally Disclosed.
- 9.3 Undisclosed Material Information shall not be disclosed to anyone except in the necessary course of business. If Undisclosed Material Information has been disclosed in the necessary course of business, anyone so informed must clearly understand that it is to be kept confidential, and, in appropriate circumstances, execute a confidentiality agreement. Schedule "B" attached hereto lists circumstances where securities regulators believe disclosure may be in the necessary course of business. When in doubt, all persons to whom this Policy applies must consult with the Chairman to determine whether disclosure in a particular circumstance is in the necessary course of business. For greater certainty, disclosure to analysts, institutional investors, other market professionals and members of the press and other media will not be considered to be in the necessary course of business.
- 9.4 In order to prevent the misuse or inadvertent disclosure of Undisclosed Material Information, the procedures set forth below should be observed at all times:
- (a) documents and files containing confidential information should be kept in a safe place to which access is restricted to individuals who "need to know" that information in the necessary course of business and code names should be used if necessary;
 - (b) confidential matters should not be discussed in places where the discussion may be

overheard;

- (c) confidential documents should not be read or displayed in public places and should not be discarded where others can retrieve them;
- (d) employees must ensure they maintain the confidentiality of information in their possession outside of the office as well as inside the office;
- (e) access to confidential electronic data should be restricted through the use of passwords and documents should not be stored in a shared directory;
- (f) transmission of documents containing Undisclosed Material Information by electronic means should be made only where it is reasonable to believe that the transmission can be made and received under secure conditions;
- (g) unnecessary copying of documents containing Undisclosed Material Information should be avoided and extra copies of documents must be promptly removed from meeting rooms and work areas at the conclusion of the meeting and must be securely destroyed if no longer required;
- (h) persons who do not require notice of a special blackout period should not be told whether a special blackout period has been designated under this Policy; and
- (i) the whereabouts of personnel of the Company or the identity of visitors to the Company's premises or operations shall not be disclosed.

9.5 Other than during certain specified windows of time designated in advance by the President and Chief Executive Officer of the Company or as the President and Chief Executive Officer may designate from time to time, any Vice President, Exploration, and members of the exploration team working with him as may be approved from time to time by the President and Chief Executive Officer of the Company, is the only individual at the Company who will receive drill and assay results before they are processed, pass quality assurance and quality control procedures, and are ready for public disclosure in accordance with the Company's timely disclosure obligations, so as not to provide others at the Company, including the Board of Directors, with potentially Material Undisclosed Information.

10. Trading in Securities of the Company

10.1 Any person or company that is in a "special relationship" with the Company is prohibited from trading on the basis of Undisclosed Material Information concerning the affairs of the Company. A person or company considered to be in a "special relationship" with the Company includes the following:

- (a) a person or company that is an insider, affiliate or associate of (i) the Company, (ii) a person or company that is proposing to make a take-over bid for the securities of the Company; or (iii) a person or company that is proposing to become a party to a reorganization, amalgamation, merger or arrangement or similar business combination with the Company or to acquire a substantial portion of its property;

- (b) a person or company that is engaging in or proposes to engage in any business or professional activity with or on behalf of the Company or with or on behalf of a person or company described in subclause (a)(ii) or (iii);
- (c) a person who is a director, officer or employee of the Company or of a person or company described in subclause (a)(ii) or (iii) or clause (b);
- (d) a person or company that learned of the Material Fact or Material Change with respect to the Company while the person or company was a person or company described in clause (a), (b) or (c); and
- (e) a person or company that learns of a Material Fact or Material Change with respect to the Company from any other person or company described in this subsection, including a person or company described in this clause, and knows or ought reasonably to have known that the other person or company is a person or company in such a relationship.

10.2 Securities laws also prohibit “tipping,” defined as communicating Undisclosed Material Information, other than in the necessary course of business, to another person. All officers, directors and employees must ensure that they do not divulge such non-public information to any unauthorized person, whether or not such person may trade on the information. If in doubt about the need to disclose, the matter should be discussed with the President and Chief Executive Officer of the Company.

10.3 In order to avoid possible inadvertent conflict with this Policy, standing sell orders or standing purchase orders are not to be left with a broker. Selling short, or buying or selling a call or put option in respect of the Company’s securities is prohibited. Executive officers and directors are prohibited from purchasing financial instruments, including, for greater certainty, prepaid variable forward contracts, equity swaps, collars, or units of exchange funds, that are designed to hedge or offset a decrease in market value of equity securities granted as compensation or held, directly or indirectly, by the executive officer or director.

11. Trading Blackouts

11.1 General

A trading blackout prohibits trading by certain directors, officers, employees and other persons subject to this Policy (a) before a material announcement is made, and (b) for a specific period of time after a material announcement has been made.

Management will consider pending developments to determine (a) when to prohibit trading, and (b) whom should be prohibited from trading. Depending on the nature of the development and which individuals subject to this Policy will have access to Undisclosed Material Information, management will develop a list of those individuals who will be subject to a particular trading blackout (the “**Blacked Out Individuals**”).

In some cases, the prohibition on trading may occur as soon as discussions about a transaction begin. During blackout periods, the Company must also avoid discussions with analysts, private briefings and interviews to the maximum extent reasonable. An appropriate response (not involving disclosure of material and/or non-public information) should be developed ahead of meetings that cannot be avoided to handle questions about

the information that is the subject of the blackout. Any individual who is subject to a trading blackout is not to disclose to any party, including other directors, officers, employees or consultants, that a blackout is in effect.

11.2 Pre-announcement Trading Blackout

The Company will impose a blackout period on applicable Blacked Out Individuals if there is a pending undisclosed material development. The blackout period will commence at the time that an individual designated by the President and Chief Executive Officer disseminates an email to all of the applicable Blacked Out Individuals confirming same.

11.3 Post-announcement Trading Blackout

The Company must allow the market time to absorb the information before the applicable Blacked Out Individuals can resume trading after the release of Material Information.

All applicable Blacked Out Individuals are prohibited from trading for one clear trading day after the earlier of (i) the material announcement being made; and (ii) the dissemination of an email from the President and Chief Executive Officer of the Company (or such other individual as the President and Chief Executive Officer of the Company may designate from time to time) confirming that the information in question is no longer material.

11.4 Trading Blackout Following News Release

In the absence of a trading blackout, the Company must allow the market time to absorb information before individuals can resume trading after the dissemination of a news release. All directors, officers, employees and other persons subject to this Policy are prohibited from trading for one clear trading day after the announcement is made, other than for news releases made in the ordinary course (such as announcing the grant of options).

11.5 The trading prohibitions in Sections 11.1, 11.2, 11.3 and 11.4 do not apply to the acquisition of securities through the exercise of stock options but do apply to the sale of the securities acquired through the exercise of stock options.

12. Blackout Period

Spokespersons must not provide any Forward-Looking Information relating to the business and affairs of the Company or any of its subsidiaries, including information relating to drilling or other exploration results, during any blackout period imposed pursuant to this Policy.

During a blackout period, a Spokesperson may respond to unsolicited inquiries about non-Material Information or information that has been Generally Disclosed.

The Company must also avoid discussions with analysts, private briefings and interviews during a blackout period to the extent reasonable. An appropriate response that does not involve material or non-public information should be developed ahead of any unavoidable meetings to handle questions that are the subject of the blackout.

13. Insider Reporting

13.1 All “Reporting Insiders” of the Company must file an initial report through the System for Electronic Disclosure by Insiders (known as SEDI) within 10 days of the later of (a) acquiring any securities of the Company, and (b) becoming a Reporting Insider. All Reporting Insiders of the Company must file subsequent reports through SEDI within five days of the day on which any subsequent trade is made in the securities of the Company. Trades include a change in nature of the ownership of the securities (e.g. a disposition to a Company controlled by the insider or a determination that the securities are to be held in trust for another person).

“**Reporting Insider**” means an insider of a reporting issuer if the insider is

- (a) the President and Chief Executive Officer, chief financial officer or chief operating officer of the reporting issuer, of a Significant Shareholder of the reporting issuer or of a major subsidiary of the reporting issuer;
- (b) a director of the reporting issuer, of a Significant Shareholder of the reporting issuer or of a major subsidiary of the reporting issuer;
- (c) a person or company responsible for a principal business unit, division or function of the reporting issuer;
- (d) a Significant Shareholder of the reporting issuer;
- (e) a Significant Shareholder based on post-conversion beneficial ownership of the reporting issuer’s securities and the President and Chief Executive Officer, chief financial officer, chief operating officer and every director of the Significant Shareholder based on post-conversion beneficial ownership;
- (f) a management company that provides significant management or administrative services to the reporting issuer or a major subsidiary of the reporting issuer, every director of the management company, every President and Chief Executive Officer, chief financial officer or chief operating officer of the management company, and every Significant Shareholder of the management company;
- (g) an individual performing functions similar to the functions performed by any of the insiders described in paragraphs (a) to (f);
- (h) the reporting issuer itself, if it has purchased, redeemed or otherwise acquired a security of its own issue, for so long as it continues to hold that security; or
- (i) any other insider that (i) in the ordinary course receives or has access to information as to Material Facts or Material Changes concerning the reporting issuer before the Material Facts or Material Changes are generally disclosed; and (ii) directly or indirectly exercises, or has the ability to exercise, significant power or influence over the business, operations, capital or development of the reporting issuer.

“**Significant Shareholder**” means a person or company that has beneficial ownership of, or control or direction over, whether direct or indirect, or a combination of beneficial

ownership of, and control or direction over, whether direct or indirect, securities of an issuer carrying more than 10 per cent of the voting rights attached to all the issuer's outstanding voting securities, excluding, for the purpose of the calculation of the percentage held, any securities held by the person or company as underwriter in the course of a distribution.

13.2 Each person that is obligated to file a report is responsible for filing his or her own report.

14. Liability for Insider Trading

The Act imposes liability on certain persons who, in connection with the purchase or sale of securities, make improper use of Undisclosed Material Information.

The relevant provincial securities legislation provides that persons who are in a special relationship with the Company and purchase or sell securities of the Company with knowledge of Undisclosed Material Information may be liable for damages to the person on the other side of the trade. In addition, any such person who informs or tips a seller or a purchaser of securities of Undisclosed Material Information may be liable for damages. The purchaser, vendor or informer is also liable to compensate the seller or purchaser of the securities, as the case may be, for damages as a result of the trade. Under the Act, a person who engages in trading with knowledge of Undisclosed Material Information or tipping is also liable to a minimum fine equal to the profit made or loss avoided, and a maximum fine equal to the greater of (i) \$3,000,000; and (ii) an amount equal to three times any profit made or loss avoided. Under the Act, any such person may also be liable for imprisonment for a term of up to three years.

15. Rumours

The Company shall not comment, affirmatively or negatively, on rumours, including those rumours disseminated on the Internet. Spokespersons will respond consistently to those rumours, saying "It is our policy not to comment on market rumours or speculation."

If a securities regulatory authority requests that the Company make a statement in response to a market rumour, the Disclosure Representatives will consider the matter and make a recommendation to the President and Chief Executive Officer as to the nature and content of any response. If the rumour is true, in whole or in part, this may be evidence of a leak, and the Company will immediately issue a news release disclosing the relevant Material Information.

16. Dealing with Regulators

The President and Chief Executive Officer and Chairman or a person authorized by the President and Chief Executive Officer or Chairman will be responsible for receiving inquiries from the Investment Industry Regulatory Organization of Canada with respect to unusual trading activity or market rumours.

If required by applicable laws, rules and regulations, the President and Chief Executive Officer and Chairman or a person authorized by the President and Chief Executive Officer and Chairman is responsible for contacting the Investment Industry Regulatory Organization of Canada in advance of the release of Material Information to seek approval of the news release, to watch for unusual trading and to determine if a halt in trading is required.

17. Dealing with the Investment Community

17.1 General

In communicating with investment analysts, security holders, potential investors and the media, the following practices must be avoided:

- (a) disclosing Material Information that has not been previously announced in a news release;
- (b) selective disclosure;
- (c) distribution of investment analyst reports; and
- (d) commenting on unreleased technical information.

17.2 Conference Calls and Webcasts

The Company may hold investor conference calls with investment analysts and other interested parties as soon as practicable (usually within one business day) after the release of quarterly financial results or significant technical or other material news. Conference calls also may be held following announcements of Material Information and events. The Company will issue a news release containing all relevant Material Information prior to all conference calls.

The Company will announce the date and time of any conference call in a news release prior to the call, if appropriate, and on the Company's website. An audio recording of the conference call will be made available by either telephone or through an Internet webcast for a limited time period thereafter and Investor Relations will retain a permanent record as part of the Company's corporate disclosure record. The Company will normally make summary slides available at the time of the conference on the Company's website. Such slides will summarize the contents of the Material Information in the news release and will not contain any information not disclosed in the news release.

Where practical, statements and responses to anticipated questions should be scripted in advance and reviewed by the Disclosure Representatives. At the beginning of each call, the Spokesperson will provide appropriate cautionary language with respect to any Forward-Looking Information and direct participants to publicly available documents containing the assumptions, sensitivities and a full discussion of the risks and uncertainties.

Spokespersons will keep notes of telephone conversations with analysts and investors.

The Disclosure Representatives will normally hold a debriefing meeting as soon as practicable after any conference call. If such debriefing uncovers unintentional selective disclosure of previously undisclosed information, the Company will immediately disclose such information in a news release, and take any other steps the Disclosure Representatives deem appropriate.

17.3 Analyst Meetings

The Company's executives may meet with analysts and portfolio managers on an individual or small group basis as required, and initiate or respond to analyst and investor calls in a timely manner. Normally, the President and Chief Executive Officer, or his designate, will attend such meetings. When the President and Chief Executive Officer, or his designate, is unable to attend such meetings, prior to such meetings, he may brief those participating in the Company's public disclosure to help ensure consistency in messages and disclosure. Where practical, statements and responses to anticipated questions should be scripted or discussed in advance by the Chairman and President and Chief Executive Officer. The Chairman may attend such meetings to keep detailed records and/or transcripts of all meetings, and to ensure that selective disclosure of Material Information does not occur and to allow follow-up cross-briefing with other Spokespersons to ensure that communication is consistent amongst all Spokespersons.

All analysts that cover the Company shall receive fair and equitable treatment regardless of whether they are recommending buying or selling the Company's securities.

In general, conversations with analysts should be limited to explanations or clarifications of Generally Disclosed Material Information or other non-Material Information or non-confidential information. The Company will keep a written log of these meetings, which will be maintained for at least five years and be included in the Company's formal disclosure record. It is not required to capture the various non-material discussions held formally.

If for any reason Material Information is selectively disclosed to analysts, investors or media in any forum, the Disclosure Representatives should be notified immediately, and the Company will immediately disclose such information in a news release, and take any other steps the Disclosure Representatives deem appropriate.

17.4 Analyst Reports and Models

When reviewing analysts' reports, comments of directors, officers, employees, consultants and contractors must be limited to identifying factual information that has been Generally Disclosed that may affect an analyst's model and pointing out inaccuracies or omissions with respect to factual information that has been Generally Disclosed.

Any comments must contain a disclaimer that the report was reviewed for factual accuracy only. No comfort or guidance shall be expressed on the analysts' earnings models or earnings estimates and no attempt shall be made to influence an analyst's opinion or conclusion.

The Company shall not distribute analysts' reports to any third parties.
