**Fabled Silver Gold Announces Listing on the Frankfurt Stock Exchange**

**Vancouver, British Columbia** – Fabled Silver Gold Corp. ("**Fabled**" or the "**Company**") (TSXV:FCO) (FSE: 7NQ) is pleased to announce the listing of its common shares for trading on the Frankfurt Stock Exchange ("FSE") under the symbol "**7NQ**" and WKN # "A2QKYJ".

The FSE is the world's third largest organized exchange-trading market in terms of turnover and dealings in securities. With over 3,000 international companies listed on the FSE and investors directly connected to the FSE, the FSE represent 35% of the world's investment capital.

The Company's shares will now be cross-listed on the TSX Venture Exchange and the Frankfurt Stock Exchange. Fabled expects the FSE listing will help increase trading liquidity and facilitate investment in the Company by institutional and retail investors across Europe. This listing does not impact the total number of common shares outstanding in the Company.

Mr. Peter Hawley, President and CEO of Fabled, commented: "Fabled is committed to building shareholder value and the Frankfurt Stock Exchange listing will enable international investors to participate in the Company's growth and development. We feel this is a great opportunity to introduce Fabled to a European investing audience at a time when Fabled is actively drilling at the Santa Maria project."

**Option Grants**

Fabled also is pleased to announce that pursuant to its stock option plan it has granted an aggregate of 3,850,000 stock options to certain directors, officers and consultants, each exercisable to acquire one common share of Fabled at an exercise price of \$0.08 per common share until December 18, 2030. The stock options vest as to 25% on the date of grant, and as to 25% every 6 months until fully vested.

**About Fabled Silver Gold Corp.**

Fabled is focused on acquiring, exploring and operating properties that yield near-term metal production. The company has an experienced management team with multiple years of involvement in mining and exploration in Mexico. The company's mandate is to focus on acquiring precious metal properties in Mexico with blue-sky exploration potential.

The company has entered into an agreement with Golden Minerals Company to acquire the Santa Maria project, a high-grade silver-gold property situated in the centre of the Mexican epithermal silver-gold belt. The belt has been recognized as a significant metallogenic province, which has reportedly produced more silver than any other equivalent area in the world.
